About

With a background in academic science and an interest in art, I enjoy both the technically rigorous aspects of application development and the creative aspects of visual design. I always aim to write clean, testable code, take mindful and user-centred approaches to design, and employ pair-programming and agile practices. I am interested in using technology for the greater good.

Web development experience

CANNES LIONS

Apr 2017 — date, London, UK

Building and maintaining dynamic single-page applications for Cannes Lions and related creative communications festivals.

OUTLANDISH

Feb 2017 — Apr 2017, London, UK

Building a full-stack web application to help young homeless people find housing.

FOUNDERS & CODERS

Oct 2016 — Feb 2017, London, UK

16-week intensive, peer-led and project-based full-stack JavaScript web development course. Worked on a total of 9 team projects, and helped to mentor the subsequent cohort of students.

Academic & technical experience

- **Carried out research projects** at Universities of Oxford, Cambridge and Groningen
- **Worked across** Physics, Biochemistry, Chemistry and Microbiology departments
- **Published** in internationally renowned scientific journals (4 publications)
- **Presented** research at international conferences (UK, USA and France)
- **Taught** biochemistry laboratory classes

Please see my [LinkedIn](#) for more information.

Other interests

- **Street artist and performer** at LJUD, Slovenian street theatre collective. Performed in the UK (Norfolk & Norwich Festival) and abroad (Slovenia and South Korea)
- **Hobbyist photographer**, awarded in several competitions
- **Mindfulness practitioner and teacher**, with 4 years of experience

Web development skills

- **Front-end development** (HTML5, CSS3, SASS, JavaScript - ES5/6/7, jQuery)
- **Single-page applications** (React, Redux)
- **Back-end development** (Node.js, hapi.js, Handlebars.js, REST APIs)
- **Databases** (PostgreSQL)
- **Authentication** (hapi.js, OAuth)
- **Test-driven development** (qUnit, Tape, Nock, Jest, Nightwatch, Travis)
- **Build tools** (Gulp, Webpack, Babel)
- **Version control** (Git, GitHub, Bitbucket)
- **Deployment** (Heroku, CM systems)
- **Browser testing** (BrowserStack)
- **Debugging** (Chrome DevTools)

Please see my [GitHub portfolio](#) for a complete list of projects I have worked on.

Education

UNIVERSITY OF OXFORD

Oct 2011 — Dec 2015, Oxford, UK

DPhil Structural Biology (Outright pass)

UNIVERSITY OF OXFORD

Oct 2007 — Jun 2011, Oxford, UK

Master of Biochemistry (First-Class Degree)

GIMNAZIJA BEZIGRAD

Sep 2005 — Jun 2007, Ljubljana, Slovenia

International Baccalaureate (42/42)
